M. Pharm RESEARCH TOPIC

Institution: Institute Of Pharmaceutical Research, GLA University, Mathura.

Project Title: Cardio protective evaluation associated with Doxorubicin.

Mentor: Dr. J. K. Gupta, Asst. Professor, IPR, GLA University, Mathura.

Description: Working on the project of cardiac toxicity associated with anticancerous drug. Cardiac toxicity caused by free radicles that is generated by anticancerous drug.

PROJECT DURING B. PHARM

Institution: School of Medical & Allied Sciences, Galgotias University, Greater Noida.

Project Title: Market research of drugs used in peptic ulcer at present scenario.

Mentor: Dr. Niranjana Kaushik, Asst. Professor, SMAS, GU University, Greater Noida.

Description: The project involved, On Investigation of drugs used in peptic ulcer at present scenario the ancient pronouncement "no acid - no ulcer" nowadays it is increasing and gives a question if acid - why ulcer"? During last decade more information has poured in about the prevalence and changing pattern of the disease, the influence of environmental factors and speculation on the role of a recently characterized bacterial organism, *Helicobacter pylori* which colonizes in the gastric mucosa, particularly the antral region. This project describes current knowledge about the pathogenesis of peptic ulcer disease and discusses strategies for its treatment.
